

Texas Instruments
General Purpose Calculator

TI-1795

The little solar desktop with some big differences.

What's so different about our little desktop? Well, for starters, it's *very* little. Only 4.2 inches by 4.8 inches by 1.1 inch high.

But it has big, easy-to-use keys and big spaces between the keys. The big, roomy feel of this keyboard will really surprise you.

It has a big, easy-to-read 8-digit LCD display. Twice as big as pocket calculator

displays. And tilted to help prevent glare.

That's already a lot of "biggs" in our little package, but there's more. Most desktops use an accounting sequence of operation, but the TI-1795 performs chain calculations just like a pocket calculator.

Of course, it's solar powered and never needs batteries.

TI-1795.

One of our little things that count.

Specifications:

Readout: 8-digit liquid crystal display

Power: Any light—indoors or out

Size: 4.2" × 4.8" × 1.1"

Weight: 3 oz.

Limited Warranty

The TI-1795 is covered by a one-year limited warranty against defects in materials and workmanship. The full text of this warranty is published in the owner's manual accompanying the TI-1795.

Texas Instruments reserves the right to make changes in materials and specifications without notice.
