

# TI-506

It's everyone's handy helper—and it's solar.

At home. At school. At work. At the store. Where you go, the TI-506 can go . . . it's little and it's light, so it fits right in.

It's always ready to go because it's solar—so you'll never have to worry about batteries.

The special tilt-top display provides a comfortable viewing angle and helps reduce glare from overhead lighting.

Of course, the TI-506 performs addition, subtraction, multiplication, and division. And, in all four functions, an automatic constant feature helps you speed through repetitive problems without reentering numbers.

A percent key shortens and simplifies percentage calculations—to help give you time to figure discounts or sales taxes before you buy.

There's a full-function, add-to or subtract-from memory—to help you remember numbers during long calculations.

Go get a TI-506. Then help is at hand wherever you go.

## Specifications

Display: 8-digit LCD tilt-top

Size: 4.5 × 2.6 × 0.5 inches

Weight: 1.4 ounces

Power: Solar

## Special features:

- Special tilt-top display provides a comfortable viewing angle and helps reduce glare from overhead lighting.
