

TI-1766-II

Slim and trim to take along—and tough enough to take it.

Here's an everyday, eight-digit math marvel that's slim and trim—but tough enough to take it when you take it along.

Specially designed extra-large keys are extra convenient and extra helpful for fast, accurate calculating.

There's a three-key, full-function, add-to and subtract-from memory, an automatic percent key, automatic constant, and a square root key.

It's solar powered. A special energy panel works indoor or out, in any normal reading-light level.

It's lightweight. At only two-and-a-half ounces, you'll hardly know you've got it—until you need it.

It's light on your pocketbook . . . because it's economically priced and you'll never buy batteries.

Specifications

Display: 8-digit LCD

Size: 4.5 x d 2.6 x 0.4 inches

Weight: 2.5 ounces
