

EASY TO OPERATE — Press the keys in the same order as the problem is written. Typical operating examples are on the back of your calculator.

BATTERY — A 9-volt alkaline battery is recommended for maximum life. A carbon-zinc battery may also be used though it should be removed immediately after being discharged to prevent possible damage from leakage.

AUTOMATIC CONSTANT — Addition, subtraction, multiplication or division with a constant number is automatic. The *first* number entered in multiplication will be the constant. The *second* number entered in the other three functions will be the constant.

DECIMAL POINT — Automatically appears to the right of any number entered unless the \square key is used. The calculator automatically positions the point to display the most significant digits of the result.

OVERFLOW INDICATION — A flashing display indicates that the result is more than eight digits to the left of the decimal. The calculator will not accept any key entries except the **CE** or **C** key. Press the **CE** key to clear only the overflow condition. The displayed number will remain for further calculation with the *decimal shifted* eight places to the left of its original position. To determine the correct placement of the decimal, mentally move it eight places to the right. Press the **C** key to clear all numbers and the overflow condition from the calculator.

OPTIONAL AC ADAPTER — Model AC 9180 Adapter is available at your dealer.

NINETY-DAY LIMITED WARRANTY

The TI-1200 electronic calculator from Texas Instruments is warranted to the original purchaser for a period of ninety (90) days from the original purchase date under normal use and service against defective materials or workmanship. **ANY IMPLIED WARRANTIES ARE ALSO LIMITED IN DURATION TO THE 90-DAY PERIOD FROM THE ORIGINAL PURCHASE DATE.**

This warranty is void if: (1) the calculator has been damaged by accident or unreasonable use, neglect, improper service or other causes not arising out of defects in material or workmanship, (2) the serial number has been altered or defaced. **TEXAS INSTRUMENTS SHALL NOT BE LIABLE FOR LOSS OF USE OF THE CALCULATOR OR OTHER INCIDENTAL OR CONSEQUENTIAL COSTS, EXPENSES OR DAMAGES INCURRED BY THE PURCHASER.**

During the above ninety-day period defective parts will be repaired, adjusted and/or replaced (at Manufacturer's option) without charge to the purchaser when the calculator is returned, prepaid and insured, with proof-of-purchase date, to a Texas Instruments Consumer Service Facility listed below.

For out-of-warranty service, carefully pack your calculator, enclose \$6.00 for service and handling, and include your complete name, address, and Zip code. Send prepaid and insured to: **Texas Instruments Service Facility, P.O. Box 22283, Dallas, Texas 75222 • Texas Instruments Service Facility, 41 Shelley Road, Richmond Hill, Ontario, Canada • Texas Instruments Consumer Service, 78 Town and Country, Orange, California 92668, (714) 547-2556 • Texas Instruments Consumer Service 10700 Southwest Beaverton Highway, Park Plaza West, Suite 111, Beaverton, Oregon 97005 (503) 643-6758**
